1300TEMPFENCE

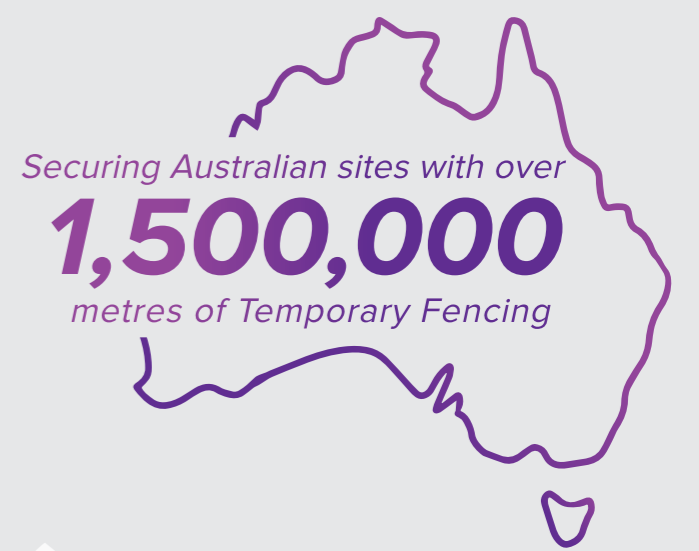

LEADERS IN COMPLETE SITE SOLUTIONS

With over 25 years' experience in the industry, 1300TempFence has grown to be one of Australia's leading complete site solutions companies by providing competitive prices, fast, reliable service and industry leading products. We ensure that our customers can get their job done in a safe and secure environment.

Our goal, is to provide a service that makes your event run that little bit smoother. With our vast experience, we know exactly what works on site. Our product range includes; temporary fencing, crowd control barriers, white picket fencing, portable toilets, noise reduction barriers, water filled barriers and site cameras. Plus plenty more!

With branches across the country, we have Australia covered and are proud to say we're one of Australia's preferred specialists in temporary fence event hire and sales.

"We're in a service business. Our success is built off the service we provide for our customers. So, we focus on doing it right the first time, to keep our customers happy"

Bruce Fouracre | Director 1300TempFence

ABOUT US

Founded by brothers, Martin and Bruce Fouracre along with their friend Mark Eaves, in 1999, 1300TempFence has since grown to become one of Australia's largest equipment hire and sales businesses.

The Ready Industries Group of businesses encompasses the following brands and products;

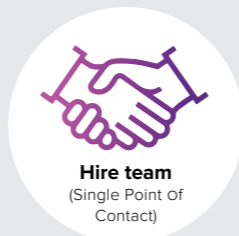

1300TempFence, Site HQ, 1300Hoarding, 1300SiteCam, 1300Dunnys and TPSCC (The Printed Shade Cloth Company) among others.

As our business has grown, we've continued to add key personnel to our senior management structure to ensure our level of service to our clients is of the highest standard.

DEDICATED ACCOUNT SUPPORT

We also provide dedicated account support, and this combined with our proven, robust management structure enables close effective communication, while

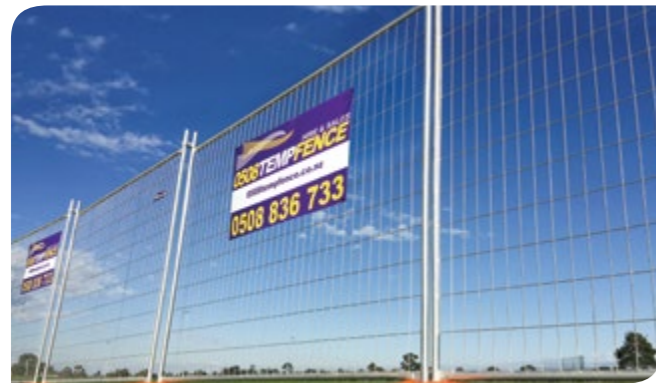

maintaining operational efficiency and the continual ability to meet our customers' needs.

EXPLORE OUR HIGH QUALITY RANGE OF PRODUCTS

We aim to provide our clients with high quality products, unrivalled site security & safety solutions.

In addition to our traditional temporary fence solutions, we also offer a range of other products and services to help ensure your event is a success! These include; Portable Toilets, Crowd Control Barriers, Water Filled Barriers, White Picket Fencing, Privacy Screen Fencing options (Plastic Sheets, Shade Cloth, Printed Banners), Site Security Cameras and so much more! Check out some of our most popular items below:

POWERED BY:
1300TEMPFENCE

TEMPORARY FENCING

Our infrastructure systems have been specially designed and engineered to perform on any major event across Australia. Our unwavering commitment to OH&S and the quality of our products, ensures we continually support our clients with experienced installers and unrivalled site security & safety solutions.

CROWD CONTROL BARRIERS

Quick and easy to install, our Crowd Control Barrier system is ideal for public safety at events and gatherings. Vital for maintaining safe crowd flow our barriers are designed with stable flat feet to reduce any tripping hazard and the added safety of holes for pegging or dyna-bolting.

ENGINEERED SPEC FENCING

In high wind prone areas, or where you have installed shade cloth or printed banner mesh, it is vital to use engineered temporary fencing. We have engineered different bracing solutions to suit multiple wind speeds, from servicing the minimum requirement of Stability Class fence at 54km/hr right up to 147km/h depending on your site's specific requirements. All of our temporary fencing is tested to be compliant with the most current version of the Australian Standard for Temporary Fencing AS-4687:2022.

PLASTIC SHEET TEMPORARY FENCING

Made from High Density Polyethylene (HDPE) sheets and attached to our sturdy MAXI 2.4m Panels, our plastic sheet fencing system provides a great alternative to traditional plywood hoarding while being extremely quick and easy to install.

WHITE PICKET FENCING

Need to keep control of crowds while still making a stylish impression? Our white picket fencing is for you. Lightweight, durable and sturdy, with low profile feet for stability. With a wind resistant design, this temporary fencing system provides a smart front-of-house fencing solution. Suitable for all occasions from sporting events, expos, weddings and more.

PRESTIGE FENCING

Perfect for events and sites where extra security or a smarter presentation is required. Our Prestige Panel provides anti-climb vertical piping and is a smarter looking alternative to a standard weld mesh temporary fence panel.

NOISE REDUCTION BARRIERS

Our Noise Reduction Barriers (Acoustic Curtains) help protect local communities and employees from the harmful effects of excessive noise. Our barriers reduce noise levels by up to 18dBA. Lightweight, weatherproof and adaptable to any environment they are simple to install and easy to transport.

SHADE CLOTH

Ideal for sun protection and privacy screening. Our high quality, heavy duty, UV protected Shade Cloth range will last for years. Available in a variety of widths, colours and shade ratings.

GROUND PROTECTION MATS

Our Ground Protection Mats (bog mats / track mats) protect grass and soft ground from tyres and prevent vehicles from getting stuck. They are moulded from a special grade of UV-stabilised recycled polyethylene resin which is designed for long outdoor life and durability. The material used allows the mats to flex without breaking even under the weight of a heavy truck, while being rigid enough to spread the wheel load. Our ground protection mats are 2400mm x 1200mm.

WATER FILLED BARRIERS

Our **Shield 1** barrier is made from a patented composite design, utilising a high strength modified UV stabilised polyethylene. Easy to install with steel connecting pins, this Australian made, re-directive barrier is approved by road authorities Australia wide.

Our **KI 1000** has been designed specifically as a pedestrian and low speed zone barrier. This barrier has a simple interlocking system that allows the barriers to remain connected while moving through angles up to 120° each way. Fitted with Class 1 reflective tape, these highly visible barriers have two apertures topside for the fitment of hazard lights, pole signage or extended mesh fencing. Complies with Australian Standard AS1742-3-2019 Traffic Control Devices for works on roads.

Our barriers have apertures in place so they can easily be fitted with fence tops for added privacy.

PORTABLE TOILETS

Safe, comfortable and hygienic, our portable toilets are both modern in design yet ergonomically friendly. Durable and built to withstand the demands of high usage and frequent movement. With regular servicing available upon request.

PRINTED BANNER MESH / SHADE CLOTH / CROWD CONTROL BARRIER SLIPS

Looking to create a visual impact at your next event? We can help with custom branded shade cloth, banner mesh and crowd control barrier slips. Work with our team of in-house graphic designers to create the impact you need to bring your event to life!

SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single or double camera units with the option of above ground, in-ground or container mount installation. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

Benefits:

- Solar & battery powered
- Uses Telstra 4G wireless internet
- High quality 4K camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light upon detected motion

We can also provide Site Monitoring and Time Lapse functionality, if this is of interest, please let us know.

OH&S: OUR CONTINUAL POLICY

We take a responsible approach to the way we work and behave, both inside and outside our organisation. As a growing business, we know we have an impact on our colleagues, our customers, the environment and our local communities, as well as on wider society and the economy.

At 1300TempFence, our number one operating priority is making sure that our company is a safe place for colleagues to work, and customers to hire from. We feel morally as well as legally responsible to provide a workplace that is safe and to equip our colleagues with the knowledge and equipment, they need to protect themselves at work.

To ensure we limit any negative environmental impact arising from our day-to-day business operations, we

commit our people and resources to help reduce polluting emissions and regulate our use of natural resources wherever possible. We recognise that the CO2 emitted by our transport activity is the largest single impact we have on the environment. We are working diligently to reduce this through becoming increasingly vehicle and fuel efficient.

“We’re committed to providing our customers with the highest quality product at all times. We strive for excellence in everything that we do.”

Bruce Fouracre | Director 1300TempFence

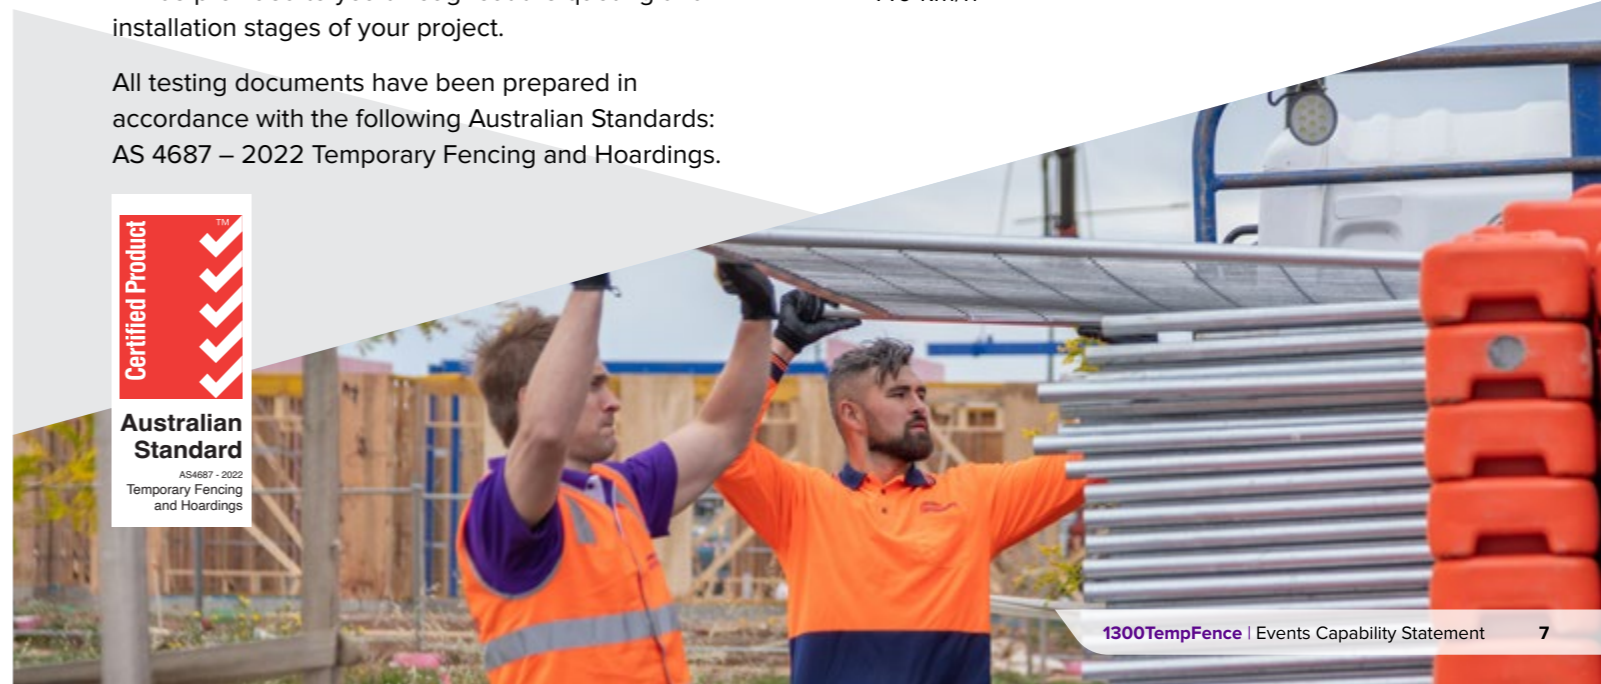

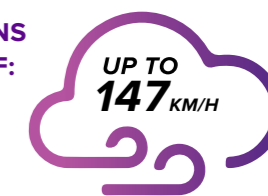

ENGINEERED TEMPORARY FENCING

At 1300TempFence we take pride in supplying industry leading, fully engineered systems, so you don’t need to worry about issues with compliance or safety. All systems are certified by third party engineering consultants, and all relevant engineering documents will be provided to you throughout the quoting and installation stages of your project.

All testing documents have been prepared in accordance with the following Australian Standards: AS 4687 – 2022 Temporary Fencing and Hoardings.

PROPRIETARY DESIGNS FOR WIND SPEEDS OF:

- 54 km/h • 65 km/h
- 75 km/h • 86 km/h
- 100 km/h • 115 km/h
- 140 km/h

NOTHING BEATS EXPERIENCE

At 1300TempFence we have the products, the experience and the expertise to ensure your event not only runs smoothly, but is also safe for all workers and attendees. We understand the true complexity of large scale events and know how to seamlessly ensure that all moving parts are where they need to be on time, on budget, every time!

We have proudly assisted on large scale sporting, cultural, music and community events. Working together with Event Companies and Councils we have assisted to deliver many major events across Australia. In Victoria alone, we have assisted on some of the following events.

SPORTING EVENTS:

- Formula 1 Australian Grand Prix
- AFL Grand Finals
- Run Melbourne
- Ballarat Road Nationals
- Australian Open
- Plus plenty more

MAJOR EVENTS:

- Good Friday Appeal
- Moomba
- Firelight Festival
- Bunyip Rodeo
- Holi Festival
- Plus plenty more

SPORTING EVENT CASE STUDY: AFL GRAND FINALS

With our head office based in Melbourne, we've always taken great pride in our involvement with the AFL Grand Final. From the Grand Final Village, September Club, Footy Festival to the Grand Final Parade, Melbourne comes alive during Grand Finals Week and 1300TempFence are there every step of the way to ensure that this fantastic week-long event runs smoothly. This year, bump in commenced on the 5th of September and our team worked right up until the Grand Final public holiday. Bump in requires extra vigilance, as we work up alongside the public who are strolling or using electric scooters nearby. With one main forklift used for the entire event a spotter is required to ensure utmost safety. Overall, we were contracted to supply and install:

Grand Final Village:

- 450 metres of Engineered Fence
- 150 metres of Crowd Control Barriers
- 144 metres of Weed Mat
- 450 metres of Printed Banners from our sister company, TPSCC

September Club:

- 941 metres of Engineered Fence
- 220 metres of Crowd Control Barriers
- Installation of 941 metres of Banners

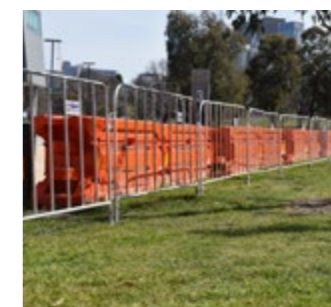

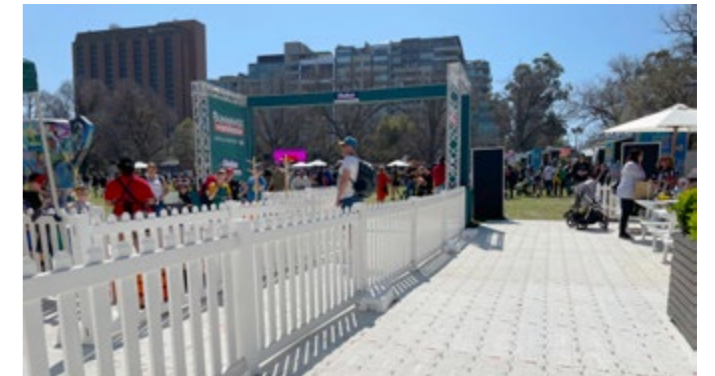

Footy Festival:

- 785 metres of Engineered Fence
- 123 metres of Temporary Fence
- 1.75 km of Crowd Control Barriers
- 472 metres of White Picket Fence
- 785 metres of Weed Mat
- 118 custom-made white temporary fence feet

Grand Final Parade:

- 320 metres of Engineered Fence
- 6 km of Crowd Control Barriers

It's safe to say that the AFL Grand Finals were a fantastic success that we were proud to be a part of.

SPORTING EVENT CASE STUDY:**AUSTRALIAN FORMULA ONE GRAND PRIX**

Ready Industries and 1300TempFence have been supplying the Australian Formula One Grand Prix for a number of years. The Formula One Grand Prix is at the forefront of International events hosted by Melbourne and Australia, rivaled only by the Australian Open Tennis as true international events. Our contract requires us to deliver and install in excess of 30km of fencing, which includes:

- Temporary Fence
- Semi-Permanent Fence
- Site Cameras
- Water Filled Barriers
- Crowd Control Barriers

To deliver the event, we appoint the following key personnel:

- Contract Manager
- Project Manager
- Leading Hand x 2
- Labour x 6

This team is based out at Albert Park for 4 months, working out of a site based compound and utilizing 3 trucks and up to 3 x buggy forklifts to deliver the job. During event week, the team operates 2 standby crews, one inside and one outside the track to deal with any issues that arise whilst the event is live.

**SPORTING EVENT CASE STUDY:****RUN MELBOURNE**

Run Melbourne is an extraordinary event that not only celebrates the spirit of running but also raises much needed funds for multiple charities. With an aim to raise a million-dollars, this huge event is held in the heart of Melbourne's CBD, and has participants running past some of the city's most iconic landmarks.

To support the race, 1300TempFence installed:

- 4,580 metres of Crowd Control Barriers
- 370 Temporary Fence Feet, to help stabilise the barriers

What makes the route so special, is also what contributes to the need for meticulous planning. Being in the CBD it is crucial to ensure minimal disruptions and ensure safety is upheld. With essential roads closed for the marathon, our team had to work swiftly and efficiently.

"What set 1300TempFence apart from other options was their customer service right from the beginning. The team was proactive in planning and communicating with us before the event, ensuring everything was well-prepared and ready for the big day. We appreciated their flexibility in adjusting quantities leading up to the event as well."

Julie Tedde – Run Motive

**MAJOR EVENT CASE STUDY:****AVALON AIRSHOW**

Held at Victoria's Avalon Airport (less than an hour's drive from Melbourne), the Airshow is a biennial 3-day event, of action-packed aerial spectaculars with awe-inspiring aerobatics, gravity defying flying displays and an array of static aircraft to view up close. It showcases the latest in military jet fighters, bombers, attack helicopters, vintage warbirds and more. The event attracts aviation enthusiasts, families, and people from all over Australia and beyond with over 48,000+ attendees through the gates over three huge days.

To successfully deliver this event, 1300TempFence supplied:

- 12,500m of Crowd Control Barriers
- 1,590m of Engineered Fence – 54km/hour spec 70%
- 1,490m Semi-Permanent Fence
- 1,390m of Temporary Fence – Braced every 6.6m

Installation commenced just before Christmas with our install crew working diligently up until February 28th when the Airshow began.

We were then back on site to dismantle our fencing and barriers, returning Avalon Airport safely back to its original condition.

**MAJOR EVENT CASE STUDY:****MOOMBA**

Moomba is Australia's largest annual free community festival. Celebrating its 70th year, the 5 day festival is held over Melbourne's Labour Day weekend. It features the iconic Birdman Rally over the Yarra River, the Moomba Masters waterski tournament amongst a host of other activities to delight the whole family.

We were contracted to install:

- 2.2km x Engineered temporary fence - 54km spec 70%
- 551m x Temporary Fence
- 4km x Crowd Control Barriers

Our team began setting up on 19th February and worked tirelessly until the opening day on 7th March. During the bump in process, we had a dedicated team of up to 3 crews a day installing temporary fence and crowd control barriers. As soon as the event ended, we began the bump out process and wrapped up by 15th March with the assistance of 3 crews. The event was a huge success. We here at 1300TempFence, take great pride in being involved in one of Melbourne's largest and most iconic events.

CULTURAL/COMMUNITY EVENT CASE STUDY: HOLI FESTIVAL

The Holi Festival celebrates unity in diversity and brings our communities together. It's a weekend of culture, colours, food, live performances, and much more.

1300TempFence had the honour of providing our services to the Holi Festival across multiple cities including Melbourne, Sydney, Brisbane, Canberra, Adelaide and Perth. Our team nationwide supplied over 1.6 kilometres of temporary fencing, along with more than 500 metres of crowd control barriers and 60 portable toilets. We were proud to participate in this large-scale national event. Our network of branches across Australia worked together to help deliver seamless events across the country.

In Melbourne, the event spanned across three days during the Easter long weekend. 1300TempFence supplied and installed:

- 200m x Temporary Fence with V Bracing every 5th panel
- 55m x Crowd Control Barriers
- 14 x Portable Toilets

The Holi Festival was an extraordinary experience to be a part of and it was great to showcase the collective efforts of our branches nationwide.

REGIONAL EVENT CASE STUDY: BALLARAT ROAD NATIONALS

The Road Nationals Ballarat saw some of Australia's best cyclists battle it out for victory on the roads from Ballarat to Buninyong. As a trusted supplier of the events industry, 1300TempFence were enlisted to provide a comprehensive range of crowd control solutions to ensure the event's safety and success.

We were contracted to install and supply:

- 325m x Temporary Fence
- 2500m x Crowd Control Barriers
- 600m x Angled Crowd Control Barriers
- 1250 x Temporary Fence Feet

Bump in began a few days before the event and involved 4 trucks with installation crews, a project manager and a forklift to assist the team with efficient installation. As the race took place on public roads in Ballarat and Buninyong, bump out, began after the event concluded on Sunday night. Our team worked efficiently throughout the night to ensure the roads were open in a timely manner and able to resume regular traffic flow.

This event was a huge success, and we were proud to have been a part of it. At 1300TempFence, we pride ourselves on being a trusted supplier of crowd control solutions for the events industry. Our extensive range of products are designed to ensure the safety and security of any event, big or small.

**DON'T BELIEVE JUST US,
Here's what some of our clients have said!**

After what has been a challenging few years in the events industry, you and your team's contributions are immensely appreciated, and we could not have delivered such a successful event for teams, fans and staff without it.

**AUSTRALIAN FORMULA 1
GRAND PRIX CORPORATION**

Matthew Walton

What set 1300TempFence apart from other options was their customer service right from the beginning.

The team were proactive in planning and communicating with us before the event, ensuring everything was well-prepared and ready for the big day.

**SOLE MOTIVE /
RUN MELBOURNE**

Julie Tedde

Great experience with Ben and Stuart from Melbourne 1300TempFence!

Would 100% hire from these guys again for any Melbourne events.
